Dear Ms. Shelton:

The Commission is in receipt of your e-mail correspondence of November 19, 2003 concerning the above case. Your e-mail requesting your name be removed from the petition that was previously submitted to the Commission has been placed in the official case file of this proceeding. The Commission will consider your remarks as contained in your e-mail of November 19, 2003.

Thank you for your interest and concern in this matter.

Thomas M. Dorman

Subject: Case # 2003-00360 - Doe Valley

Mr. Dorman,

My name is Jennifer Shelton and recently a petition was sent to you regarding the PSC's involvement with the Doe Valley water project. The petition was dated October 31, 2003 and was sent to you by Lois Conn.

The reason I am writing is to inform you that I feel that I was misled by this petition and would like you to remove my name from this document (signature "Shelton" and Lot# 88). I was told that this was a petition that would ask the Doe Valley POA Board and the PSC to give a "review" of the water plant expansion issues. I had no idea that Lois Conn would add a cover letter without my knowledge and send this out to the PSC indicating that the POA does not represent the community of Doe Valley.

Doe Valley and the POA only want what's best for our community and, believe it or not, regardless of what you hear from the few "squeaky wheels" here in Doe Valley, we all want the same thing....Doe Valley lake as our only source of drinking water. Whether or not the PSC is involved in this matter is truly up to circumstances beyond my direct control. I feel that the PSC is a fine organization and do not have a true preference as to whether or not we remain under your jurisdiction or not. My only concern is this....Doe Valley lake must remain as my drinking water source. As long as that happens it truly makes little difference to me whether the PSC is involved or not.

If you would like a personal opinion, I can give you one. I think that there is a divide between a few people here and that there are a few that want to hold this process up. Unfortunately, we don't have that kind of time. It is imperative that we make a decision ASAP. You can help us by using your best judgment and understanding the "politics" of a small community. I realize that everyone must have a voice but the majority have spoken and the last time I checked we live in a democracy. Doe Valley residents want the lake as the source of their drinking water. Period. End of story.

11/20/03

Thank you so much for your time in reading this e-mail. Please remove my name from the above mentioned petition and understand that I and all of the residents here are willing to work toward a common goal. I hope that we can come to a conclusion soon so that we can move in a positive direction.

Respectfully,

Jennifer Shelton

P.S. Please feel free to contact me if you would like an unbiased opinion on the situation here. I will be happy to speak with you at any time. Also, would you please send a brief response when you get this? That way I'll know you have read my concerns. Thank you once again for your time. I truly appreciate your response as I know how valuable time can be.
